Hi William,

Thank you for your email. The FAQ page on our website gives a few examples, which is at this link. Amanda Tyler's written testimony provided to Congress includes additional detail. Her written testimony in December 2022 is at this link, and her written testimony provided in conjunction with her October 2023 testimony is at this link.

Sincerely,  
Karlee Marshall (on behalf of ChristiansAgainstChristianNationalism.org)

Sent via form submission from *Christians Against Christian Nationalism*

**Name:** William Donohue

**Subject:** Evidence of violence by Christian Nationalists

**Message:** In Amanda Tyler's testimony before a Congressional committee in October, she cites the statement Christians Against Christian Nationalism wherein it states that "at home and abroad" Christian nationalism "inspires acts of violence and intimidation-including vandalism, bomb threats, arson hate crimes and attacks on houses of worship." I am very much interested in this subject. Could you please provide me with the evidence upon which this claim was made? Thanks.
